

Are your eyes irritated or itchy? Is your vision blurry or cloudy?

You may be suffering
from **Dry Eye Syndrome**.
Take our quick test!

To Start:

1. Blink several times
2. Stare at the number blocks
3. Slowly count the numbers without blinking

If you are unable to get to **NUMBER 10** without blinking, you may have dry eye syndrome.

How'd You Do?

Dry Eye is a common condition that is often undiagnosed, but **Market Mall Optometry** can help. Make an appointment now with one of our eye care professionals and be on your way to clear, healthy vision.
